Published by OpenStax
College, U.S. History
covers the breadth of the
chronological history of
the United States and also
provides the necessary
depth to ensure the
course is manageable for

instructors and students
alike. U.S. History is
designed to meet the
scope and sequence
requirements of most
courses. The authors
introduce key forces and
major developments that

together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Rebooting Social Studies Rowman & Littlefield

Presents a multifaceted

model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

U.S. History, Grades 6 - 12
Princeton Review

A RUSA 2007 Outstanding Reference Title The Encyclopedia of US Labor and Working-Class History provides sweeping coverage of US labor history. Containing over 650 entries, the Encyclopedia encompasses labor history from the colonial era to the present.

Articles focus on states, regions, periods, economic sectors and occupations, race-relations, ethnicity, and religion, concepts and developments in labor economics, environmentalism, globalization, legal history, trade unions, strikes, organizations, individuals, management relations, and government agencies and commissions. Articles cover such issues as immigration and migratory labor, women and labor, labor in every

war effort, slavery and the slave-trade, union-resistance by corporations such as Wal-Mart, and the history of cronyism and corruption, and the mafia within elements of labor history. Labor history is also considered in its representation in film, music, literature, and education. Important articles cover the perception of working-class culture, such as the surge in sympathy for the working class following September 11, 2001. Written as an objective social history, the

Encyclopedia encapsulates the rise and decline, and continuous change of US labor history into the twenty-first century.

Land of Hope Mark

Twain Media

Presents a collection of lessons and activities for teaching American history for students in middle

school and high school.

Cracking the AP. U.S. History Exam Princeton Review

This book offers the tools teachers need to get started with an innovative approach to teaching history, one that develops literacy and higher-order thinking skills, connects the past to students' lives today, and meets Common Core State Standards (grades 7–12). The author provides over 60 primary sources organized into seven thematic units, each structured around an

essential question from U.S. history. As students analyze carefully excerpted documents—speeches by presidents and protesters, Supreme Court cases, political cartoons—they build an understanding of how diverse historical figures have approached key issues. At the same time, students learn to participate in civic debates and develop their own views on what it means to be a 21st-century American. Each unit connects to current events and dynamic

classroom activities make history come alive. In addition to the documents themselves, this teaching manual provides strategies to assess student learning; mini-lectures designed to introduce documents; activities to help students process, display, and integrate their learning; guidance to help teachers create their own units; and more. “Full of thought-provoking questions, engaging primary source documents, and an impressive array of

classroom activities, this is a must-have resource for history teachers looking to stay relevant in our modern learning landscape.” —Diana Laufenberg, lead teacher and executive director, Inquiry Schools, Philadelphia, PA “A useful resource for novice and experienced history teachers, social studies teacher educators, homeschooling, and community educators. I am excited to use it in my college classes; this is required reading!” —LaGarrett King,

University of Missouri “A remarkably thoughtful and engaging aid to teaching U.S. history. Using carefully chosen primary documents, Metro raises pointed questions that will help teachers and students alike wrestle with the place of the past in the present.” —Jill Lepore, Harvard University

An Invitation to the Great American Story Princeton Review
As a high school teacher of government and AP Us history, I found it

compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the workings of the federal and state government. As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last

opportunity I had as a teacher to inform them about the workings of the federal and state government. Several students were instrumental in creating an atmosphere of challenge and the desire to be more knowledgeable. As a result, I formulated a pretest that became the citizenship Test for my high school students in government. Since it is required in most high schools across the nation, other teachers might find this a good guidebook.

That citizenship test and the student responses are the basis for this book, which I hope the readers will find enlightening and educational. This is my attempt to educate the electorate about basic information that every citizen should know about their government and maybe encourage them to want to know more.

**Nation's Report Card:
U.S. History 2010** DIANE
Publishing

What does Miley Cyrus have in common with Sacagawea? How could Steve Jobs have helped

Eisenhower? What does the moon landing have to do with the Hilton sisters? In less time than it takes to recite the preamble to the Constitution, most Americans can spout off all their U.S. history knowledge. (Hint: it starts with "In 1492" and ends with "sailed the ocean blue.") That's because most history books are as interesting as the phone book—and have the same number of pages. The average Joe (the guy who TiVo'd John Adams on HBO but won't make Colonial Williamsburg his

next vacation spot) needs a witty and edgy history book—and he has it, with this guide. Hysterical authors—and self-described slackers—Don Stewart and John Pfeifer give readers the bare minimum on important events such as: The Civil War (the war that pitted brother vs. brother—about the bruthas) The expedition of Lewis and Clark (the ultimate road trip) The Boston Tea Party (not much of a party unless that tea was from Long Island) The assassination

of JFK (one vacation that ended particularly badly) Combining current pop culture references and accessible historical information, this satirical book catches readers up on what they slept through in History 101.
