This book offers a translation of the seven thousand verses of the second book of the medieval Hindu text, the Ganesa Purana, one of two Puranas dedicated to the important elephant-headed god. In this book the reader is given many narratives about Ganesa's ascent to earth in order to kill demonic figures who threaten to overthrow the correct world order. In addition, these narratives contain myths about Ganesa's birth and family as well as some extended and quite humorous myths about ideal devotees of the god. The translation is preceded by a long introduction offering a geographical and historical context for the Ganesa Purana. Following the translation are very extensive notes which bring our points of philological interest, but focus mainly on the literary structure of the text and the methods used to present the many myths and narratives in a coherent and fully integrated manner.

Astrologia kármica. Los tránsitos astrológicos Ramtha's School of the Mind

In *Stages of Meditation*, His Holiness offers his highly practical views on the subject of meditation: how to meditate, the various different procedures and approaches we can take, what we and others may gain from it. He explains how we can develop a spiritual path in a proper sequence rather than in a scattered, piecemeal fashion. He also shows the importance of building up both method and wisdom, as well as cultivating compassion and 'special insight' as we train our minds. This impressive and stimulating book will not only bring the Dalai Lama - one of the world's most popular and pragmatic spiritual leaders - to a huge new audience but, because so many people round the globe are now practising meditation, from a basis of religious faith or none, this is a work which will doubtless be in print for many years to come.

Beyond the Brain seriously challenges the existing neurophysiological models of the brain. After three decades of extensive research on those non-ordinary states of consciousness induced by psychedelic drugs and by other means, Grof concludes that our present scientific world view is as inadequate as many of its historical predecessors. In this pioneering work, he proposes a new model of the human psyche that takes account of his findings. Grof includes in his model the recollective level, or the reliving of emotionally relevant memories, a level at which the Freudian framework can be useful. Beyond that is perinatal level in which the human unconscious may be activated to a reliving of biological birth and confrontation with death. How birth experience influences an individual's later development is a central focus of the book. The most serious challenge to contemporary psycho-analytic theory comes from a delineation of the transpersonal level, or the expansion of consciousness beyond the boundaries of time and space. Grof makes a bold argument that understanding of the perinatal and transpersonal levels changes much of how we view both mental illness and mental health. His reinterpretation of some of the most agonizing aspects of human behavior proves thought provoking for both laypersons and professional therapists.

The science of esoteric astrology is said to be the basic occult science for the future. It will come into its own as the esoteric or soul factors begin to supersede the exoteric focus of the vast majority of professional and amateur astrologers today. This is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field. The Ancient Wisdom teaches that Space is an entity. It is with the life of this entity and with the forces and energies, the impulses and the rhythms, the cycles and the times and seasons, that esoteric astrology deals. Esoteric astrology can be applied by the trained worker in a variety of ways; in medicine, psychology, science, education; to an evaluation of human problems, of the destiny of nations, of a correct interpretation of world affairs, and so on. It is necessary, however, that at this stage the application of esoteric astrology to human life should be recognised as experimental and tentative, so that each individual worker can adjust his thinking and his methods according to his own wrought-out experience, to work depend entirely on a consciousness evolving out of control by the personality into the life of the soul, out of separateness and self-centredness into a realisation of unity, and absorption into a centre of group consciousness. Astrology is described in this book as the science of relationships - the relationship existing between all living organisms within the universe. Not only the qualities of the ray energies affect these centres of consciousness, but also the quality and energy of the ruling planets and the zodiacal signs. Seen from the exoteric outside, astrology is a vast and most involved and complex subject. From the esoteric inside, while it is still vast, all-inclusive and complex, it is also possible to perceive the thread which unites and the pattern which prevails throughout the whole system. A basic simplicity in the grand design emerges, therefore, which can serve to interpret the whole. study: (1) The Zodiac and the Rays (2) The Nature of Esoteric Astrology (3) The Science of Triangles (4) The Sacred and Non-Sacred Planets (5) Three Major Constellations (6) The Three Crosses (7) The Rays, Constellations and Planets. In addition there is an appendix which summarises and tabulates many of the factors of fundamental importance to the study of esoteric astrology. This is a book for the true occult student. It may appear to be too highly specialised for some; but every esoteric worker finds eventually that his work requires an understanding of the basic astrological factors which affect all relationships and all forms of life within the ethers of space, so that he may learn how to cooperate intelligently in the evolution of the whole by the right adjustment of the part within that whole; until eventually the many are absorbed into the One. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919?1949, constitute a continuation of the Ageless Wisdom Ca body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths.

In the Tibetan tradition the ability to dream lucidly is not an end in itself rather it provides an additional context in which one can engage in advanced and effective practices to achieve liberation. Dream yoga is followed by sleep yoga also known as the yoga of clear light. It is a more advanced practice similar to the most secret Tibetan practices. The goal is to remain aware during deep sleep when the gross conceptual mind and the operation of the senses cease. The result of these practices is greater happiness and freedom in both our waking and dreaming states.

Este libro es un manual completo de astrología que comprende: 1.- El significado psicológico de los signos 2.- Cómo calcular el ascendente y las casas 3.- El significado psicológico de los planetas en los signos y en las casas, y la interacción entre planetas en todos sus aspectos geométricos. Para ello, la Astrología kármica usa los siguientes puntos de estudio como referencia: 1.- Signos interceptados que reflejan aquello que, teniendo oportunidades en el pasado kármico, no se llegó a realizar. 2.- Los planetas en retroceso en los signos y en las casas, que reflejan aquellas situaciones repetidas constantemente por pertenecer a aspectos conocidos de vidas pasadas y que toman mucha energía de nuestros pensamientos inconscientes. 3.- Los nódulos de la luna, que reflejan tendencias heredadas de otras vidas y muestran cómo éstas pueden transformarse evolutivamente, dirigiéndose a aquello que indica el nódulo norte.
